

NOVA Master Finish

Universal Gypsum Skim & Finish Coat

- Smooth, durable gypsum finish across multiple substrates
- 2 mm skim coat | ~100 min finishing time | Up to 10 m² coverage per 25 kg
- CE Marked EN 13279-1 (Type B1) | A1 fire-rated | 12-month shelf life

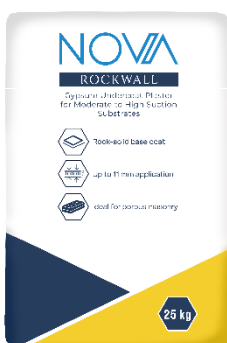

Product Information & Documentation: [TDS](#) | [SDS](#) | [DoP](#)**NOVA BoardGrip**
Gypsum Adhesive for Plasterboards

- High bond strength gypsum adhesive for internal bonding of plasterboards
- Drylining & dot-and-dab | ~90 min working time | Bond strength ≥ 0.06 MPa
- CE Marked EN 14496 | A1 fire-rated | 12-month shelf life

Product Information & Documentation: [TDS](#) | [SDS](#) | [DoP](#)**NOVA Tuff Base**

Gypsum Undercoat Plaster for Low to Moderate Suction Substrates

- High-strength gypsum base coat for dense masonry (low- to medium-suction surfaces)
- Up to 11 mm thickness for wall application | Up to 8 mm thickness for ceiling application | ~200 min set time
- CE Marked EN 13279-1 (Type B4 & C3) | A1 fire-rated | 12-month shelf life

Product Information & Documentation: [TDS](#) | [SDS](#) | [DoP](#)**NOVA RockWall**

Gypsum Undercoat Plaster for Moderate to High Suction Substrates

- Rock-solid gypsum base coat for porous masonry (medium- to high-suction surfaces)
- Up to 11 mm thickness for wall application | Up to 8 mm thickness for ceiling application | Hand or machine applied | ~120 min finishing time
- CE Marked EN 13279-1 (Type B4 & C3) | A1 fire-rated | 12-month shelf life

Product Information & Documentation: [TDS](#) | [SDS](#) | [DoP](#)**NOVA JointPro**

All-purpose Gypsum Filler & Jointing Compound

- Easy fill gypsum jointing compound & filler for plasterboard joints, patching and general wall repairs
- Joint tape embedding & deep fills | ~60 min working time | ~80 min finishing time
- CE Marked EN 13963 (Type 3B) | A1 fire-rated | 12-month shelf life
